---------------	--

Safety Reminders: All Scouts must ski with a buddy!

- You are highly encouraged to form Buddy Groups of 4 (four) at the start of the morning; if you find that you have two different speeds in your group, you can break the group apart into a slower pair and a faster pair.
- The Buddy System for scouts applies at all times for both fast skiers and to slow skiers. If you find that there is a speed mismatch in your group, then it is all the MORE important to keep each other in sight at all times
- Please ski at a reasonable speed and one that you feel confident that you can control.
- Consider taking a lesson - even if you're not a beginner as the best skiers can always learn more, and a good instructor can help you ski with better control and confidence.
- If you get tired, take a break, most injuries happen when your tired.
- **If you are caught skiing alone, that could result in being asked to sit in the lodge and give up your ski pass.**
